Wedding Day Advice

It's Here! It's Really Here!

You're getting hitched!!! Now what??

What to Prepare & What to Do

- 1.** Have an offline copy of your wedding day timeline (take a screenshot of the PDF I send you). This will have the answer to every question everyone will ask you on the wedding day.
- 2.** Send the screenshot to your maid of honor, your best man, and your future hubby/wifey.
- 3.** Make sure you and all bridal party members have snacks and water tucked away in your bags and pockets. You're gonna need them until cocktail hour starts.
- 4.** During the wedding ceremony, tell everyone involved to avoid looking at the photographer(s). This will result in better and more natural photos.

Scroll down for #5 - 8 ... It's just getting good...!

5. Ladies, make sure you have flip flops or comfy flats readily available during photo times. This will come in handy if you have to stand/walk in grass.

6. If your wedding dress covers your feet, you can basically wear your flats all throughout the photo sessions with NO PROBLEM. You're welcome.

7. This one is for brides who want absolute control over how their photos look: during your first dance (and parent dances), talking and singing while dancing may produce weird expressions on faces. However, not talking and only making eye contact is sure to bust out some tears. This is photographic gold.

8. I'm YOUR photographer. If at any time during the party you need a photo, wave me down, grab me, send someone to grab me. Whatever you need, I got yer back :)
